## DECLARATION ON COMPLIANCE WITH GOOD MANUFACTURING PRACTICE ISO 22716

Mehron, Inc.

100 Red Schoolhouse Rd.

Chestnut Ridge, NY 10977

845-426-1700

Declares that the cosmetic products produced by our company (see the attached list) are produced according to the Good Manufacturing Practice ISO 22716 standards for the production, control, storage and shipment of the cosmetic products.

These standards include, but are not limited to:

- Sufficient and trained staff, with adequate level of qualification;
- Cleaned, maintained, if needed sanitized premises ensuring protection of products including minimizing risk of products mix-up, raw materials and packaging materials;
- Cleaned, maintained, if needed sanitized and calibrated equipment to prevent product contamination;
- Raw materials & packaging materials purchased with detailed identification and status, and meeting defined acceptance criteria relevant to the quality of finished products with particular attention to storage, release, quality of water used in production, and re-evaluation;
- Manufacturing operations and packaging operations meeting defined characteristics including relevant documentation, start-up checks, batch number assignment, in-process operations identification and control, bulk product storage, raw material and packaging re-stocking, packaging line identification, work-in-process identification and checks;
- Finished product meeting defined acceptance criteria which storage, release, shipment and returns did not alter, as well as supportive checks and documentation;
- Quality control laboratory sampling and testing of raw materials and final products preventing release if not meeting the set quality requirements;
- Complaints and recalls review, investigation, and follow-up.
